

PRESS RELEASE

SCT's acquisition of Tasmania based CRE Solutions Logistics

Tuesday, 18 March 2025

SCT Logistics ("SCT") is excited to announce the acquisition of CRE Solutions ("CRE") Logistics. The business, which was established in 2007, is based in Tasmania and offers daily Trans Bass services to and from the state. The acquisition will better enhance operations through increased presence in the markets and networks currently occupied in both Tasmania and across the rest of Australia. Additionally, it enables enhanced multi modal revenue streams for the SCT Group.

The founder and current owner of CRE Solutions, Chris Anderson, has built a strong reputation for outstanding customer service, flexibility, and tailored logistics solutions. He believes that connecting the two family businesses, which have shared cultures, will be a benefit to all CRE employees.

Chris Anderson will stay on with SCT to oversee the Trans Bass operations for seamless stakeholder transition and continuity across service levels and business activities.
