FOR IMMEDIATE RELEASE

26th June, 2026

ZOOiD APPOINTED AS OFFICIAL TRAINING PARTNER TO THE IFRS FOUNDATION

Sustainability reporting consultancy ZOOiD has been appointed as an official training partner to the IFRS Foundation. The appointment enables ZOOiD to deliver official ISSB Disclosure Training using IFRS Foundation-developed content, supporting an approved and consistent high-quality learning experience to the Australian market.

ISSB Disclosure Training introduces corporate preparers and learners to the concepts and skills needed to navigate the sustainability disclosure landscape. The training is practical, application-focused, and builds confidence in preparing high-quality sustainability disclosures to investors and capital markets. Training will be delivered in person, live online, or on demand. A training schedule is currently under development.

The training adds further capability to ZOOiD's suite of sustainability training offerings, which includes the Global Reporting Initiative (GRI) Professional Certification Program. ZOOiD was appointed as a Certified Training Partner to the GRI in 2008.

"We are pleased to become an official training partner of the IFRS Foundation. The training will provide Australian organisations that are required to report to the AASB S2 climate-related financial disclosures with a global and local lens on how to report not only on climate, but also other material environmental and social sustainability related topics." said Marian Gruber, Managing Director, ZOOiD.

"The IFRS training, which is focused on sustainability related financial disclosures, will complement Australian organisation's sustainability impact reporting, which sits at the heart of creating sustainability strategy." said Ms Gruber.

About ZOOiD

ZOOiD is one of Australia's longest serving sustainability focused consultancies. For over 20 years, ZOOiD has delivered sustainability reporting and strategy, materiality assessments, and sustainability training services to companies globally. ZOOiD is an approved ISSB Training Partner and Certified Training Partner of the Global Reporting Initiative (GRI). ZOOiD is the Reporting Exchange Partner for the Business Council for Sustainable Development Australia (BCSD Australia) – the Australian chapter of the World Business Council for Sustainable Development (WBCSD).
