Australian ingenuity on show at 'Built Here' Parliamentary Showcase

See 50 exhibitors demonstrate what Australian research, development and innovation create: new products, jobs, industries and sovereign capability

Event details:

- **WHAT:** Built Here Parliamentary Showcase (view [Exhibitors](#)).
- **WHERE:** Great Hall, Parliament House, Canberra.
- **WHEN:** Monday 12 October, 4:30 PM – 6:30 PM

Background:

Australian ingenuity will take centre stage at Parliament House, with around 50 exhibitors demonstrating what Australian research, development and innovation create: new products, skilled jobs, stronger supply chains, sovereign capability and new industries. The Built Here Parliamentary Showcase is presented by a coalition of innovative businesses, Cooperative Research Centres, universities, NCRIS facilities and Rural Research and Development Corporations.

Participants include TechnologyOne, AIBUILD, BioCina, Quantum Brilliance, Liquid Instruments, New Frontier Technologies, Diraq, Bosch, Magellan Power, GapDrone, First Quantum Minerals, E-HUALA, Inventia Life Science and more. Together with their R&D partners in universities, CRCs, Rural Research and Development Corporations and research infrastructure, they show how Australian ideas and expertise deliver practical benefits for industry, communities and the economy.
