Title: Add a little bit of spice to your gifts this Mother's Day

SYDNEY: Lord & Lion are adding flavour to Mother's Day gifts this year, offering a range of special spice gift packs fit for any budget - providing mums across the country with authentic Indian and Sri Lankan spice blends that enhance dinner time in a flash.

When Mother's Day comes around, we're all guilty of resorting to a voucher that won't get used, a cash gift with no thought, or regifting a Christmas present still in its packaging that's been gathering dust for four months.

This inspired Lord & Lion founder and Sydney local, Eresha De Zoysa, to create a range of specialised Mother's Day gift packs that will add special value to Aussie kitchens.

"Our spices have been individually sourced and carefully harvested from fields where our neighbours and loved ones have worked for generations, reflecting the heritage of local communities in India and Sri Lanka. We hope that these gift packs will inspire innovative and creative cooking.

"Not only do our spice blends allow you to create traditional subcontinental dishes, they can also be added to your conventional meals such as a Sunday roast, and take them to the next level," says Eresha.

The gift sets are packaged by hand, containing irresistible spice blends. Each jar within the gift set has a scannable QR code that gives you recipe recommendations and instructions for that blend.

Available for purchase on <https://www.lordandlion.com>, there are three gift sets available for purchase -
