

Australia, 9th of April, 2025— In a bold move to support Australia’s growing international workforce, MOR. Relocation, the newly launched sister company of the award-winning MOR. Healthcare, is redefining the relocation experience. With a mission to build strong, confident communities across the country, MOR. Relocation offers a FREE Concierge Service to assist migrants in navigating the essential services needed to begin a new chapter in Australia – with heart, understanding, and expertise.

Whether arriving through employer sponsorship, skilled visa grants, or international recruitment, the transition to Australia can be complex and overwhelming. MOR. Relocation is here to ensure no one walks that journey alone.

“At MOR. Relocation, our purpose is simple, to help people not only arrive, but to truly feel at home,” says Javiera Ski, Co-founder and Director. “This is more than a service. It’s personal.”

### **Born from Lived Experience**

MOR. Relocation was inspired by the deeply personal journey of co-founders Javiera and Catalina, who migrated from Chile to Australia as young girls with their parents. Having witnessed the immense challenges their family faced settling into a new country – from language barriers to navigating unfamiliar systems, they know firsthand how crucial the right support can be.

Later, after relocating to London for six years and eventually returning home to Australia, the sisters experienced migration and reintegration from both sides of the world.

MOR. Relocation was built from our lived experience. We know what it means to start over – the overwhelm, the excitement, the confusion. That’s why we’ve created the kind of service we wish our parents had,” shares Catalina.

### **What We Offer – Free Concierge Support**

Each client is matched with a dedicated Relocation Support Specialist who acts as a personal guide, supporting every step of the relocation journey and connecting individuals with Australia’s most trusted service providers.

Our Free Concierge Service Includes:

- Visa & migration support
- Opening an Australian bank account
- Setting up mobile & internet plans
- Private health insurance support
- Superannuation (retirement fund) account setup
- Premium airport transfer with personalised welcome signage
- Shipping of personal belongings
- Post-arrival local support
- Access to a personalised client portal filled with helpful resources and checklists
- Plus more

Optional Paid Services (not mandatory) include:

- Rental Search Assistance
- Childcare, kinder & school search support
- Career advice & employment guidance

#### **A Premium Aftercare Solution for Organisations**

MOR. Relocation works with organisations across Australia, including healthcare, education, tech, and corporate sectors – offering this aftercare service to support international recruits once their employment and visa arrangements are in place.

This service is available regardless of who facilitated the original job placement, meaning any organisation can refer their recruits to MOR. Relocation for pre and post-visa support.

“Organisations invest a great deal in securing international talent. We’re here to ensure that investment is matched with holistic care – creating confident arrivals and stronger, more connected communities,” says Javiera.

#### **Ready to Build Brighter Futures**

With operations now live across the country, MOR. Relocation is ready to serve individuals and organisations who believe in making relocation a joyful, well-supported journey.
