

UniPhi is 'Fair Jobs Code Pre-Assessment' certified

UniPhi has been fair jobs code pre-assessment certified from the Victorian Government. This is part of the Victorian Government's Fair Jobs Code, which verifies a supplier or business's history of compliance with relevant industrial relations and workplace health and safety laws, and is a prerequisite for certain Victorian Government contracts and grants.

UniPhi is glad to have demonstrated to meet the code's standards, including treating workers fairly, paying wages and entitlements correctly, and supporting safe and inclusive workplaces.

"We are really pleased to have been certified under the Fair Jobs Code," said Mark Heath, UniPhi CEO.

"This positively contributes to our continuing partnerships with public sector clients in a way that reflects our values."

About the Fair Jobs Code

The Fair Jobs Code is a Victorian Government initiative to promote fair, secure and inclusive employment. Businesses applying for certain government contracts or grants must show they meet the Code's standards – helping to ensure all workers in the state of Victoria are treated with respect and fairness.
