

## Super Feedy Launches Revolutionary 4-in-1 Slow Feeder Dog Bowl!

Melbourne, 26 August 2022 - Super Feedy, an Australian lifestyle pet company with an innovative slow feeder dog bowl, announced the launch of the Marley Slowappy Feeder today. This versatile, four-in-one slow-feeder dog bowl offers pet parents and their dogs a better, healthier, and happier mealtime experience.

This innovative Australian design combines a slow feeder bowl with a reversible lick mat that doubles as the lid for food prep and a travel dog bowl.

The versatile slow feeder promotes healthy eating habits in dogs by improving their digestion. Along with its generous 10-cup capacity, the bowl has a suction cup base that ensures it will not move, slide or tip over during mealtime. Designed from recycled plastic and food-grade silicone, the dog bowl is available in one size to suit most dogs.

The Marley Slowappy Feeder contains all the essentials to give dogs a healthier, happier mealtime experience and peace of mind for their owners.

Pre-orders are now available, with a 30% discount for early backers.

Ryan O'Neill-Fong, Founder of Super Feedy, mentioned, "Pet parents like us have probably tried a variety of different slow feeders and dog lick mats. Some may have thought they had solved the problem for a while, but the results were short-lived. Many slow feeders on the market are frustrating for dogs and can lead to poor health outcomes.

We know what it's like to live with a dog in discomfort and pain after meals. Nothing is more frustrating. We're disrupting the category with a better alternative: no dog has to live in pain and discomfort, and no pet parent has to live with additional stress and frustration."
