

Scott Prior Announces the Release of Thriller book - A Failure To Act

FOR IMMEDIATE RELEASE

MELBOURNE, AUSTRALIA — 23 October 2023. Scott Prior is proud to offer his debut thriller - A Failure To Act, available on 1st November 2023.

Novel

A tale of death, destruction, kidnap, revenge, and survival. A Failure To Act's pacing will appeal to those who enjoy the action / thriller genre. The book, written for readers who enjoy losing themselves inside a plot. The twists and turns in the action accompanied by the odd backflip in the narrative, see the reader drawn towards an uncertain outcome. It mirrors the books development somewhat, as a concept that started 30 years ago that followed its own uncertain path, until retirement and COVID sent the author on a journey of his own to complete the work.

Attack the police They take it personally!

The brutal death of a colleague sees a police task force, go down a rabbit hole of international crime and home-grown terrorism. A secretive army Major and a new Constable join the team...But are they all they seem to be?

The crimes appear unconnected until it all falls into place and the gravity of the situation becomes apparent... Can they stop... An assassination?... A mass casualty event?... An attack from beyond the grave on the nation's capital?

"If I'm not mistaken, we have two of these devices a stone's throw from the Houses of Parliament, and no idea what they're targeting."
