

## **e-Pocket Celebrates Its 8th Anniversary by Expanding Money Transfer Services to Over 100 Countries**

[e-Pocket.com](https://www.e-pocket.com), an emerging global money transfer platform, is marking its 8th anniversary with a significant expansion of its services. Previously catering primarily to transfers from Australia to African countries, e-Pocket is now broadening its reach to include over 75 additional countries worldwide, allowing users to send money home with a \$0 exchange fee. With this expansion, e-Pocket's remittance service, available at [www.e-pocket.com/remittance](https://www.e-pocket.com/remittance), now supports a robust 102 countries corridor on its platform.

"From the very beginning, our mission at e-Pocket has been to make international money transfers more accessible and affordable for everyone," said Tapha Faye, Founder of e-Pocket. "By expanding our services to over 75 new countries, eliminating the exchange fee, and introducing the debit card as a new transfer method alongside our existing bank transfer, mobile wallet, and cash pick-up options, we're taking a giant leap forward in fulfilling that mission and serving our loyal customer base in Australia," he added.

This expansion comes as a response to the growing demand from e-Pocket's Australian users who have family, friends, and business ties in various parts of the world. With this new offering, users can now send money seamlessly to countries across Asia, Europe, Africa, and more.

### **Key Features of e-Pocket's Expanded Service:**

**Diverse Transfer Methods:** In addition to bank transfer, mobile wallet, and cash pick-up, e-Pocket has now added debit card as a new method for money transfers.

**\$0 Exchange Fee:** Users can now send money internationally without any exchange fee, ensuring maximum value for their transfers.

**Fast and Secure Transfers:** Money transfers are processed quickly, with most transactions completed within 24 hours.

**Real Exchange Rate:** e-Pocket uses the real exchange rate, ensuring users get the best value for their money.

**User-Friendly Platform:** Whether using the website or the mobile app, sending money is a breeze with e-Pocket's intuitive interface.

To start sending money to the newly added countries, existing and new users can simply log in to their e-Pocket account, select the desired country, and follow the easy transfer process. The e-Pocket app, available on both iOS and Android, offers a user-friendly experience, allowing customers to make international transfers and manage their account on the go.

### **About e-Pocket:**

e-Pocket is a global technology company that offers international money transfer services. With a commitment to transparency and customer service, e-Pocket has quickly become a trusted name in the industry.
